

## '69 Torana

**Just shaking hands with it will give you a thrill.**

Every one of the six new '69 Toranas comes with this gearshift as standard equipment. Floor mounted, it has four speeds. And the changes are lightning fast, because there's full synchromesh. If you don't make racing changes, try our automatic. And if you don't want the super-sporty Brabham, try one of the other five new models. Four doors or two, you'll find new comfort inside, with new interior design. And the full Holden safety package, including an energy absorbing steering column.

Six new Toranas. Every one sporty. Every one fun to drive.

See your Holden Dealer, and get him to introduce you.
