

# One of the great partnerships: Holden & Castrol.

As Colin Bond will tell you, driving is a partnership. A partnership between you and your car and the oil you're using.

Point is, you can be the best driver in the world, but if your car or your oil lets you down . . . you're down. Which is why the Holden Dealer Team and Colin Bond won't use anything else but Castrol. Because when they do they've got a great partnership going.

Castrol GTX does the whole job. It lubricates better than any other oil on the market. You don't need to spend another cent on extra additives. Quite simply, Castrol GTX outdates every other oil you can buy. Just ask Colin Bond.
